FROM OUR MINISTERS

That's Enough

Nobel Prize winner Max Born noted, "The human race has today the means for annihilating itself — either in a fit of complete lunacy, i.e., in a big war, by a brief fit of destruction, or by careless handling of atomic technology, or through a slow process of poisoning and of deterioration in its genetic structure." Besides being a genius, Born was also the grandfather of Olivia Newton-John. How about that?

Since scientists unlocked the power of the atom, we have lived under the shadow of imminent destruction. Whenever this thought comes to mind, so does a comment from Reuel Lemmons about the world continuing until the Lord says, "That's enough."

He hasn't said it yet.

But he will one day.

— Chuck Monan
